

**Central Aroostook  
Soil and Water  
Conservation District**

**Executive Director Position**

The District's primary goal is to use technical, financial and educational resources to meet the soil, water and natural resources conservation needs of local landowners, managers and municipalities.

The potential candidate should have a background in natural resources conservation. The candidate must possess good written and oral communication skills, grant writing and administration experience, familiarity with Microsoft Office software, budgeting, accounting, and office organization. Skills relating to natural resource management such as GIS, conservation planning, nutrient management planning/agronomy, erosion control and forestry are preferred. The position will require the ability to work independently on multiple projects while under the direction of a Board of Supervisors.

This position will remain open until filled. Please send cover letter, resume and salary requirements to:
